The Tower of Babel

Once upon a time, everybody spoke the same language. They said to each other, "Let's build a city with a tall tower that reaches to the heavens."

 Count the blocks, circle the correct number.

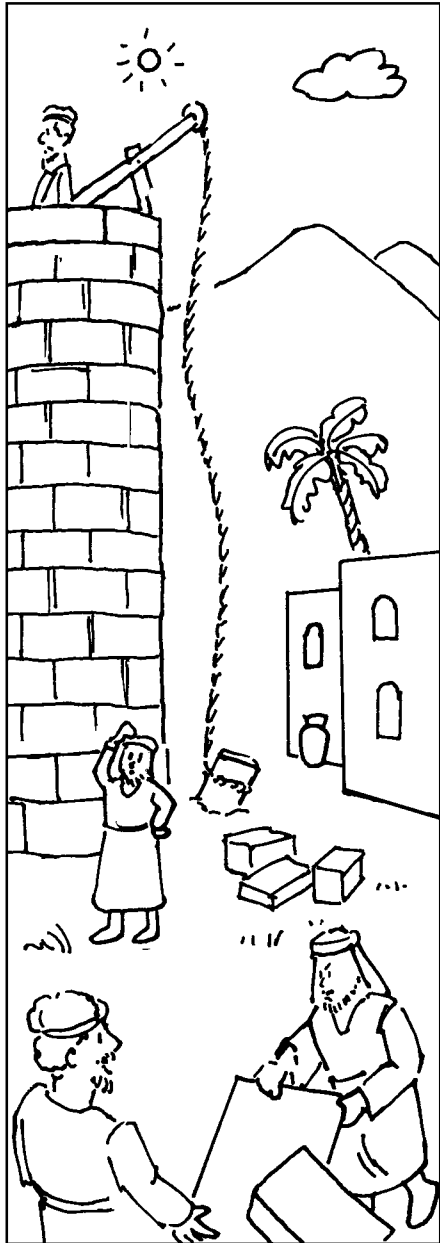

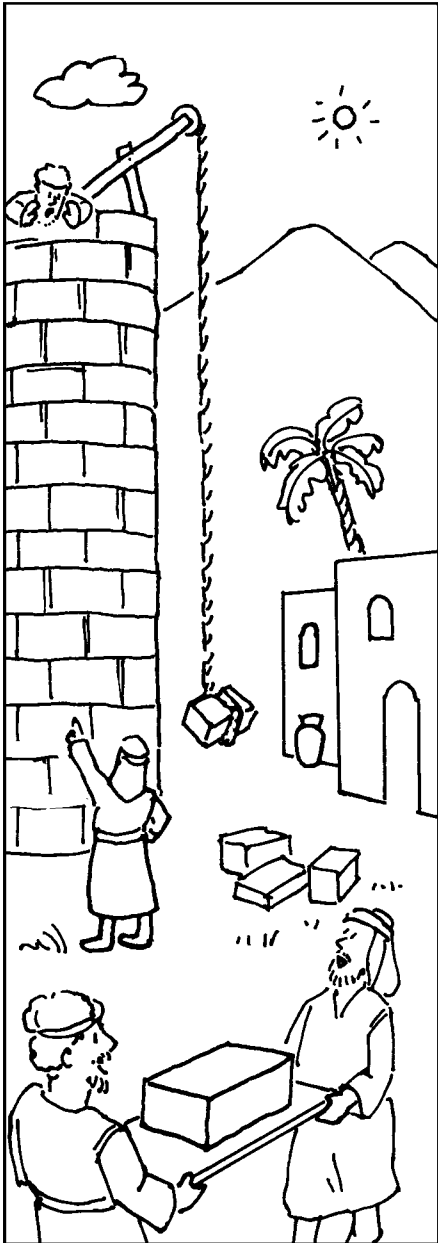

9 or 10 or 11 ?

The illustration shows two women building a tower with rectangular blocks. One woman is standing on a partially completed tower, and the other is handing her a block. Below the tower, there are 11 individual blocks scattered on the ground. The text '9 or 10 or 11 ?' is written to the right of the tower.

God saw what the people were planning to do. So, God confused the people.

Circle 7 differences in the 2nd picture.

Then, the people spoke different languages. They could not understand each other. What happened to the tower?
