### The Report on the Exploration of Canaan

Moses sent out 12 men, one from each tribe, to explore Canaan.

Use the clues and the table below to match six of the men with their correct tribes.

	Reuben	Simeon	Judah	Ephraim	Naphtali	Gad
Caleb			X			
Geuel						X
Joshua				X		
Nahbi					X	
Shammua	X					
Shaphat		X				

- Shammua was from the tribe of Reuben.
- Three of the men's names start with the same letter as their tribe name, but Joshua isn't one of them.
- Caleb is from the tribe that has 5 letters in its name.
- Joshua is from the tribe that begins with E.

The men brought back a cluster of grapes so large it took two men to carry it on a pole between them! What did they tell the people?

Solve the math problems to put the words in order.

"We went into the land and it does flow with milk and honey."

The men brought back two different reports. What were they?

Add or subtract the indicated number of letters in the alphabet to solve the code. For example, A + 8 letters is I, so substitute I for A and A for I.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

A (+8) → I E (+3) → H V (-6) → P  
B (+9) → K F (+6) → L W (-8) → O  
C (+4) → G T (-6) → N X (-5) → S  
D (+6) → J U (-8) → M Y (-7) → R

Caleb and Joshua said ...

"We should go up and take the land. Do not be afraid. God is with us."

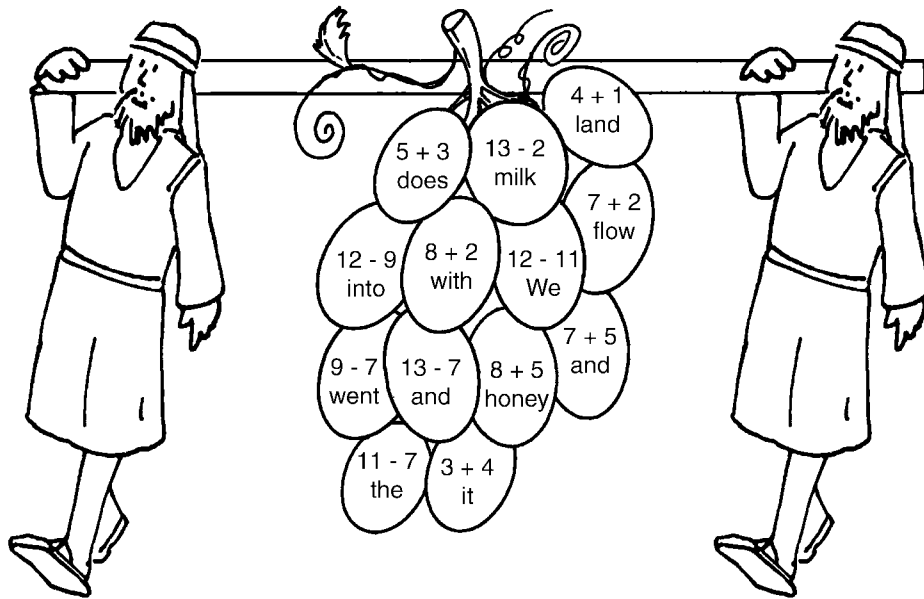

But the other ten men said ...

"We cannot attack those people; they are stronger than we are."

“ 1 2 3 4 5
